Foods

Product Catalogue

Welcome to Savola Food

Savola Food Turkey owns several leading brands in the Turkish fats and oils market, including Yudum, Yudum Egemden, Sırma, Vala, and Sava. Among these, Yudum is particularly notable, having established a significant heritage since its production began half a century ago. In 2008, Savola Group acquired Yudum's operations, which included leading liquid oil brands and Turkey's largest liquid oil production facility in Ayvalık. This facility spans 23,000 square meters and has an annual production capacity of 150,000 tons for corn and sunflower oils, and 20,000 tons for olive oil, with a total liquid oil filling capacity of 225,000 tons annually.

Following the acquisition, Savola continued to invest in the business, notably introducing the Yudum Egemden olive oil range and establishing a new specialty fat production facility at the Ayvalık plant in 2018, which has an annual capacity of 30,000 tons. Subsequently, Savola launched the Vala and Sava brands, targeting specialty and industrial fats markets.

Our facility is a pioneer in Turkey's liquid oil sector for implementing the ISO 14001 Environmental Management System. It also holds certifications for GFSI accredited food safety standard BRCGS, ISO 22000 Food Safety Management System, ISO 9001 Quality Management System, and ISO 45001 Occupational Health and Safety Management System.

For ten consecutive years, Savola Food Turkey has been recognized as the leading branded olive oil exporter in Turkey, with our share in export markets growing annually.
